Dear

This will acknowledge your letter of 12 October 1950.

25X1A7b

Your plans for departing from about 1 December and reporting for duty here about 15 January 1951 appear satisfactory and are approved.

I note by your letter that you apparently wish to travel from England to the U. S. by ship. I have no objections to your doing so, but believe it pertinent to point out that it may cost you a bit of money. The reason for this is that since the remainder of your trip was by air you would be held to air fare for the London-New York trip to include per diem, and would be charged annual leave for excess time spend on the ship.

It is difficult in view of your complicated travel voucher to compute the exact amounts involved. However I am advised that it would probably not amount to more than \$100.00 and might be considerably less than that. Possibly you feel the luxury of a see voyage worth the extra cost.

25X1A7b

We will then look for you to report here for duty about 15 January 1951. I am pleased that you are enjoying and your duty there.

Sincerely,

25X1A9a
